

Landcare Queensland Membership

Why are our members important?

Your membership of Landcare Queensland allows us to continue to support landcare and environmental work around the state. During the past year, our members have helped us to:

- partner on a project to create digital case studies that showcase the hard work of landcarers
- conduct a series of over 30 grant writing workshops to assist landholders and community groups obtain funding for projects
- participate in judging for the Awards for Regional Achievement in Environment and Landcare
- enhance awareness about landcare and related issues throughout the state by hosting and attending events that engage the broader community
- increase access to resources by establishing a virtual bookshop which stocks a wide range of environmental books that assist landcarers

We receive no government funding for operating costs. So, our membership program is crucial to our ongoing involvement in supporting the community and helping them access the resources they need to get the job done.

Member benefits

Members of Landcare Queensland receive the following benefits:

- discounts at selected landcare events such as the Queensland Landcare Conference
- direct assistance with grant applications and corporate funding submissions
- discounts on merchandise and books through our virtual bookshop
- a free monthly bulletin with up to date information about grants; resources; training; and promotional opportunities, and
- other special offers and attendance at one-off events.
